\$215
30 CEU's

April 23-26, 2012

Registration: 7:30 am
Class: 8:00 am-5:00 pm

Norfolk

Norfolk Lodge & Suites
4200 Norfolk Ave.
402-379-3833

This course will discuss the physiological, psychological, and sociological aspects of problem/pathological gambling including the history of gambling. Participants will also study the process of abuse, addiction, signs and symptoms, behavior patterns and financial indicators. It will also include the study of pharmacology relevant to the treatment of problem/pathological gambling and co-morbid disorders.

Objectives

- Students will increase their understanding of specific terms associated with medical and psychological issues.
- Students will become aware of personal biases and beliefs.
- Students will increase their basic knowledge on the history and social impact of gambling in the U.S.
- Students will increase their understanding of historical and theoretical approaches to treating problem gamblers.
- Students will increase their knowledge of the predominant effects of problem gambling on society as well as current regulated forms of gambling in Nebraska.
- Students will increase their knowledge of etiology, behavioral, and cultural aspects of problem gambling.
- Students will increase their knowledge of multicultural issues when dealing with problem gamblers.
- Students will increase their knowledge of the process of abuse, addiction, signs and symptoms, behavior patterns, and financial indicators of problem gambling.
- Students will increase their understanding of pharmacology relevant to the treatment of problem gambling and co-morbid disorders.

This activity was supported in whole or part, from federal or state funds received from the Nebraska Department of Health and Human Services, *Division of Behavioral Health Services*.
